

Setting the Default Shipment Line Data

Shipment Line attributes can be set to display the same information every time you create an EZ Rate or New Shipment. These are Default Settings and can be set in the Default Shipments section located under the Admin options.

Here you can set Default values for the Bill of Lading Section, Product Data and Shipment Data.

Mode*	Shipping Units*	Additional Weight (LBS)	Total Weight (LBS)	Equipment Type*	Special Instructions	Dimensional Total (IN³)	
Standard	3 Boxes	0.00	0.00	Van-standard trailer		0.00	
Shipment Accessorials							
User Defined Accessorials							
Other Freight Attributes							
Declared Liability: \$		COD: \$		Seal #:		Trailer #: <input type="text"/>	
		0				Route #: <input type="text"/>	

Save Defaults

Update the information in the Shipment Data line to be your defaults. To add an additional line select the plus sign from the upper right of the section.

Mode*	Shipping Units*	Additional Weight (LBS)	Total Weight (LBS)	Equipment Type*	Special Instructions	Dimensional Total (IN³)	
Standard	3 Boxes	0.00	0.00	Van-standard trailer		0.00	
Shipment Accessorials							
User Defined Accessorials							

Once finished select "Save Defaults"

Mode*	Shipping Units*	Additional Weight (LBS)	Total Weight (LBS)	Equipment Type*	Special Instructions	Dimensional Total (IN ³)	+
Standarc ▾	3 Boxes ▾	0.00	0.00	Van-standard trailer ▾		0.00	🗑️
LTL ▾	2 Pallets ▾	0.00	0.00	Van-standard trailer ▾		0.00	🗑️

Shipment Accessorials
 User Defined Accessorials

Other Freight Attributes

Declared Liability: \$ COD: \$
Seal #: Trailer #: Route #:

Save Defaults

The defaults chosen will display whenever creating a new EZ Rate or New Shipment
